

Foliflex®

WIRES & CABLES

PRODUCT CATALOGUE

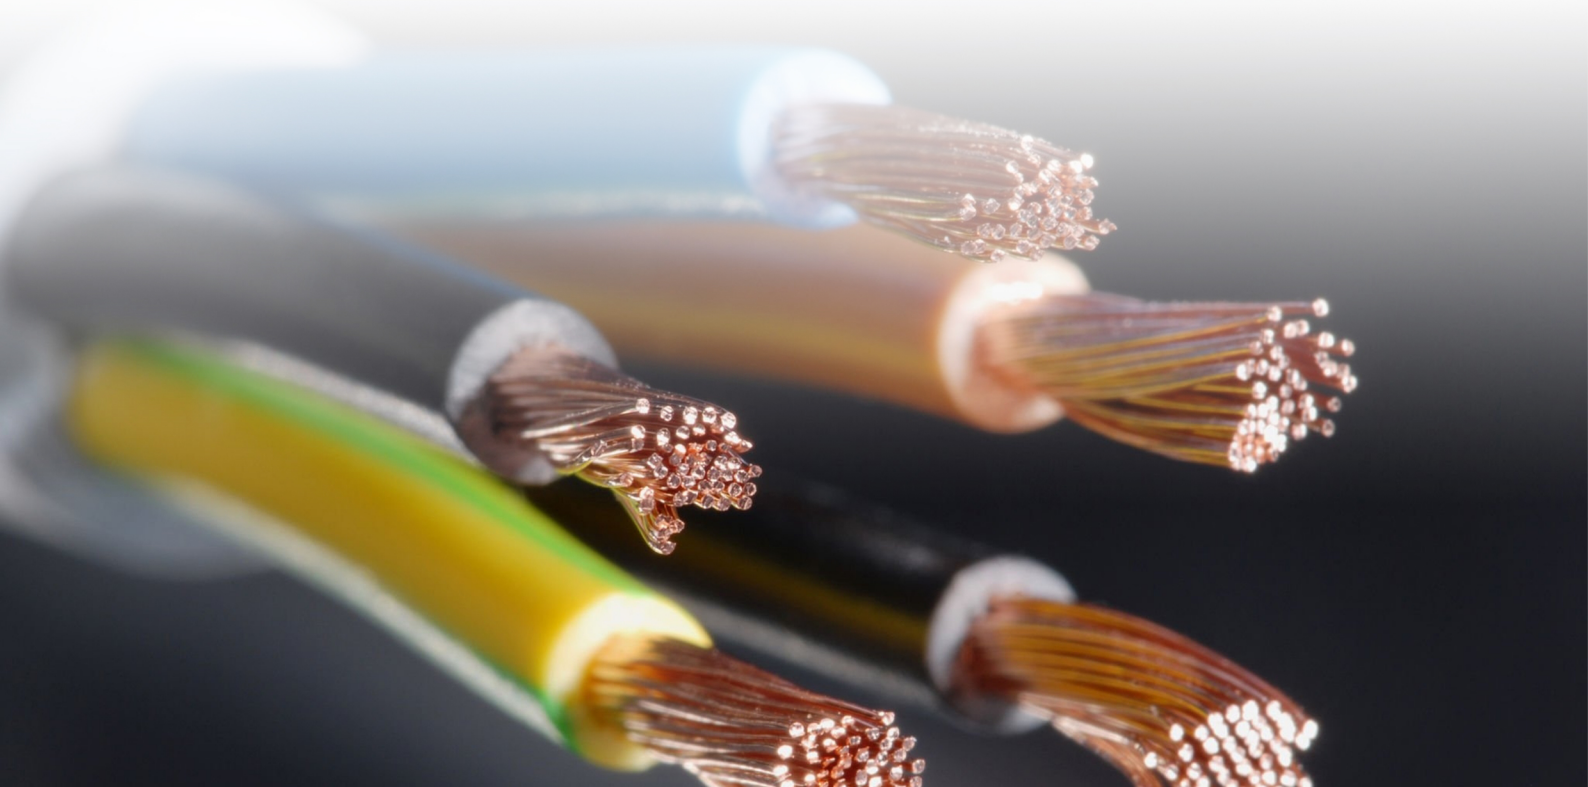

AN ISO 9001:2015 CERTIFIED COMPANY

About Us

Foliflex Cable And Wires Is Currently The Leading Player In Electric Cable Industries In India With Commitment To State Of Art Technology , Manufacturing World Class Products. We Are Serving Indian Industry Since Last 50 Years With Time Tested, Reliable And Well Proven Products In The Field Of Wire And Cables. We Are Manufacturing And Supplying Of Wide Range House Wire Insulated Cable, Submersible Cable, Aluminium Cable, Multicore Cable , Industrial Flexible Twisted Cables Etc.

Foliflex Cables And Wires Possesses Most Modern Manufacturing Units ISO 9001:2015 Certified Located In JHILMIL INDUSTRIAL AREA DELHI To Manufacture Products Confirming To International And Indian Standards. We Are Using The Latest Technology With World Class Material Under Strict Quality Assurance Procedures With Total Traceability Of In House Or Approved Supplier Materials Throughout Production Process. We Have A Well Equipped Research And Development Unit That Has Internal Accredited Lab

FOLIFLEX GOLD FR-LSH

FLAME RETARDANT LOW SMOKE & HALOGEN

PVC INSULATED SINGLE CORE UNSHEATHED COPPER CABLES (UP TO 1100 VOLTS AC)

CONDUCTOR The conductors drawn from bright electrolyte grade copper and annealed and bunched together

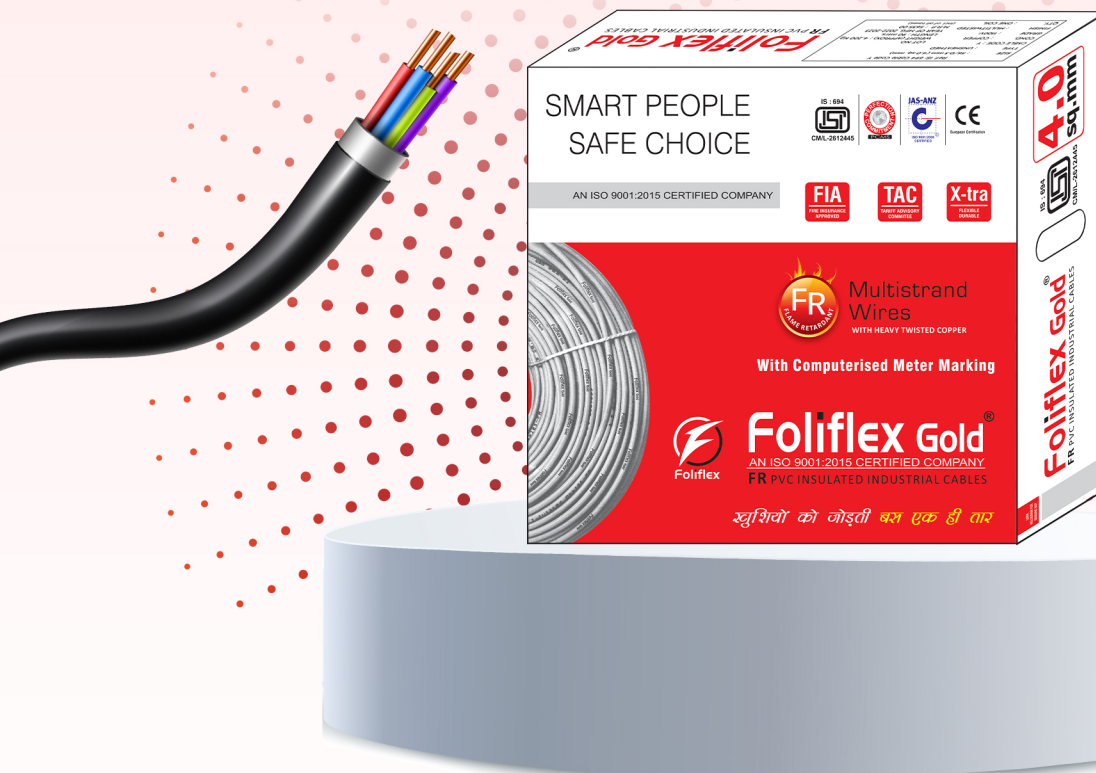

INSULATION The bunched conductors are insulated with specially formulated FR-LSH PVC compound with a high insulation resistance value. The insulation process is carried out on modern high speed extrusion lines, which ensures high accuracy and consistency in performance. Flame retardant low smoke & halogen properties enable the cable to withstand overdloads. The insulation is resistant to boiling water steam and vapors. This prevents ageing and cracking in kitchens, bathrooms, damp walls and chemical industries.

MARKING The cables are printed with generic marking GOLD

COLORS Red, Yellow, Blue, Black, Green and white

PACKING 90 Meters (approx 100 yards) packed in protective carton

FOLIFLEX GOLD is a multi-stranded flexible wire with flame retardant properties. It has specially formulated insulation with a high oxygen and temperature index, enabling the wire to withstand overloads preventing electric mishaps. So, give yourself the promise of security and supreme quality. Get FOLIFLEX house wires and safeguard your home for life.

FOLIFLEX SAFETY FR-LSH

FLAME RETARDANT LOW SMOKE & HALOGEN

PVC INSULATED SINGLE CORE UNSHEATHED COPPER CABLES (UP TO 1100 VOLTS AC)

CONDUCTOR The conductors drawn from bright electrolyte grade copper and annealed and bunched together

INSULATION The bunched conductors are insulated with specially formulated FR-LSH PVC compound with a high insulation resistance value. The insulation process is carried out on modern high speed extrusion lines, which ensures high accuracy and consistency in performance. Flame retardant low smoke & halogen properties enable the cable to withstand overdoses. The insulation is resistant to boiling water, steam and vapors. This prevents ageing and cracking in kitchens, bathrooms, damp walls and chemical industries.

MARKING The cables are printed with generic marking SAFETY

COLORS Red, Yellow, Blue, Black, Green and white

PACKING 90 Meters (approx 100 yards) packed in protective carton

FOLIFLEX SAFETY is a multi-stranded flexible wire with flame retardant properties. It has specially formulated insulation with a high oxygen and temperature index, enabling the wire to withstand overloads preventing electric mishaps. So, give yourself the promise of security and supreme quality. Get FOLIFLEX house wires and safeguard your home for life.

FOLIFLEX PLUS FR-LSH

FLAME RETARDANT LOW SMOKE & HALOGEN

PVC INSULATED SINGLE CORE UNSHEATHED COPPER CABLES (UP TO 1100 VOLTS AC)

CONDUCTOR The conductors drawn from bright electrolyte grade copper and annealed and bunched together

INSULATION The bunched conductors are insulated with specially formulated FR-LSH PVC compound with a high insulation resistance value. The insulation process is carried out on modern high speed extrusion lines, which ensures high accuracy and consistency in performance. Flame retardant low smoke & halogen properties enable the cable to withstand overloads. The insulation is resistant to boiling water and steam and vapors. This prevents ageing and cracking in kitchens, bathrooms, damp walls and chemical industries.

MARKING The cables are printed with generic marking PLUS

COLORS Red, Yellow, Blue, Black, Green and white

PACKING 90 Meters (approx 100 yards) packed in protective cartoon

FOLIFLEX PLUS is a multi-stranded flexible wire with flame retardant properties. It has specially formulated insulation with a high oxygen and temperature index, enabling the wire to withstand overloads preventing electric mishaps. So, give yourself the promise of security and supreme quality. Get FOLIFLEX house wires and safeguard your home for life.

OUR PRODUCTS

SUBMERSIBLE CABLE

MULTI CORE ROUND

TWIN FLAT ALUMINIUM CABLE

RG6 COPPER

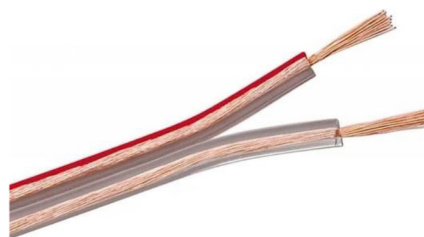

ALUMINIUM ARMoured CABLES

COPPER ARMoured CABLES

2 CORE FLAT

SPEAKER WIRE

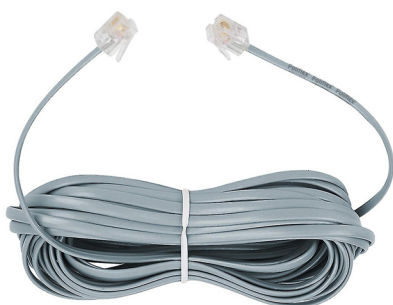

OUR PRODUCTS

MULTISTAND

TWIN TWISTED

TELEPHONE WIRE

CCTV 3+1 WIRE

CAT 6 WIRE

INSULATION TAPE
